PREFACE

The collector of Ancient Greek and Roman coins will find in this collection a rare opportunity to buy, for every coin differs, and in the lots of Roman coins the reverses are different.

The Canadian series contains two Franco-American Jetons, 1752, 1757, of the greatest rarity, and, so far as I am aware, are unpublished. The condition the coins are in has been carefully noted, and I feel the buyer will be quite satisfied. No lot will be separated and will be sold at so much each piece, no matter how many coins are in the lot. All are guaranteed genuine, and this guarantee holds good indefinitely.

Catalogues will be priced and sent after the sale on receipt of 75 cents. Bids will be executed by me for the usual 10 per cent. of the amount bought.

- 1230 1752 Franco-Americana. Louis XV. Aged portrait, bust r., bare and laureated, LUDOVICUS XV. REX CHRISTIANISSIMUS. Below bust C. N. ROETIERS . FIL . F. R. Mercury flying over the sea, fortress on shore, and on promontory at left side the initials of engraver, C. N. R. above UTRIQUE FACIT COMMERCIA MUNDO (He presides over the commerce of each hemisphere). Exergue COL. FRANC DE L'AM. 1752. (Colonies of France in America.) Borders beaded, edge plain. Copper; silvered apparently before striking, as it has a fine old surface. Extremely fine and I judge to be a very early impression. It is from an obverse die differing materially to any hitherto pictured or described I believe. This lot, the next two preceding and succeeding two lots do not belong to the Sayre collection, but do come from a very old collection which has been formed some fifty years ago.

Copper. Edge plain. Very fine. *Original*. Excessively rare and the obverse differs from any, so far as I am aware, heretofore published. The obverse resembles No. 35, plate 1, of Frossard's pamphlet on the Franco-American jetons, N. Y., 1899, but that obverse lacks the scarf over the armor. The reverse is pictured Leroux No. 286.
